Louis Cunningham Speaks to Athletes about Dangers of Drugs and Alcohol
(Brookhaven College, February 2006)

“The drug and alcohol seminar presented by Louis Cunningham was extremely well received by all those attending. Much more personal for the athletes with current statistics, NCAA information, etc. being used. The PowerPoint was great and he related his talk primarily to baseball players (since that was predominately our audience) which kept everyone awake and engaged. I highly recommend everyone use him for future seminars. A professional job all around.”

- L. Levesque

Mr. Cunningham and other All American Research & Drug Testing executives are available to speak on drug testing, federal grants, state and federal legislation on drug policies, youth and professional sports, and other related topics. For further information, please call 972.929.8040.
